For new writers:

To start contributing content, you'll need to attach a clearance article with your first album review request form. **This should be a review of any album, around 450 words, and in keeping with the WRBB style guidelines (see the media team guide above).** We'll look it over and give any feedback necessary, and then you'll be all set to start contributing articles! We recommend that writers build their chops with a few album reviews first before reviewing shows, but if there´s a show you really want to review and you're a new writer, let us know and we can work something out.

Revision #1
